Additional Energy Bay Consumption Discounts may be available to customers on the above usage rates. On-market / Network only customers will receive an unbundled equivalent network tariff rate for their usage profile.

Comparison Price - The Comparison Price is the maximum price that an exempt electricity seller is permitted to charge, as set by energy regulators. It is based on the standard rates offered by the local area retailer to new customers in your distribution region. For more details on the local area retailer for your region please visit: [Register of Retailers of Last Resort | Australian Energy Regulator \(AER\)](#)
